

Seattle Planning Commission 2001 Work Plan

Here's a look at the Commission's ambitious work program for the year 2001, organized categorically.

Comprehensive Plan

- review and comment on the annual Comprehensive Plan Amendments process
- participate in the development of policy docket issues: Green Streets and View Protection
- provide input on the Transfer of Development Rights program in Seattle

Housing

- continue to monitor growth targets and housing goals
- participate in the development of growth target programs and housing levy renewal
- continue to provide input in housing-related policy and program development

Neighborhood Plan Implementation

- release the Neighborhood Plan Stewardship Survey
- sponsor an Assessment of Neighborhood Planning as part of an interdepartmental effort
- participate in the Neighborhood Plan Implementation Advisory Committee
- monitor the progress of neighborhood plan implementation at the sector level

Transportation

- monitor and provide input to the City's Intermediate Capacity Transit program and the Seattle Transit Initiative
- review and comment on sub-area transportation studies
- monitor and provide input to the progress of the Elevated Transit Corporation and the Metro 6- Year Plan
- participate in the Light Rail Review Panel, focusing on station design, alignment and corridor design issues

Community Development

- coordinate the 5th Avenue NE Street Design Project
- coordinate work on the Northgate General Development Plan
- continue to monitor development in the South Lake Union area
- provide input on the Center City Open Space Strategy and Implementation Plan
